

Joseph Neisen

joseph@neisen.xyz • (208) 615-4368 • <https://github.com/jneisen> • [LinkedIn](#)

Experience

Programming Languages: C++, C#, Python, GDScript

Core Skills: Game Design, Game Development, Data Structures & Algorithms, Strong Ability To Work In A Team

Tooling: Git, Unity, Godot, Visual Studio, OpenGL, VIM

BisonBytes 2025 Hackathon

May 2025

Game Developer [GDScript, Godot]

- Developed a fully playable platform fighter using Godot and GDScript, implementing local multiplayer.
- Designed and optimized core game mechanics, creating an enjoyable experience for players of all calibers.
- Led a four-member team, contributing to rapid prototyping, debugging, and playtesting iterations under tight 24-hour hackathon constraints.
- Presented the project to judges and peers, receiving positive feedback.

Education

HOWARD UNIVERSITY, Washington, D.C.

Expected Graduation: May 2028

Bachelors of Science (B.S.) in Computer Science

GPA: 4.0, 2025 Dean's List Recipient

Notable Coursework: Calculus III, Computer Science III: Data Structures and Algorithms, Software Engineering, Discrete Structures, Linear Algebra, Large Scale Programming

Technical Projects

Duck Jump 2

Individual Project [Unity] – Developed a publicly available platformer game using Unity and C# which had crisp and satisfying movement, and exemplary level design.

Solitaire

Individual Project [C++] – Developed a text based Pyramid and Klondike solitaire replica running on C++ with a text based interface on the command line

Mine Sweeper

Individual Project [C++/OpenGL] – Developed a fully working minesweeper clone with mouse controls in C++ with OpenGL

Snake

Individual Project [C++/OpenGL] – Developed a fully working snake with keyboard controls in C++ with OpenGL.

Additional

Extracurriculars

Concert & Jazz Band – Developed leadership, teamwork, and confidence through performing in 25 concerts with an average of 150 attendees (2021-2025)

- Gene Harris Jazz Festival Runner-up
- Howard University Jazz Ensemble auditionee

Volunteer – Participated in over 70 hours of volunteer work including teaching at the Salvation Army, a school house restoration project, etc.
